DIGITISATION SERVICES & INFORMATION INTEGRATOR COMPANY OF THE YEAR

IID S.A.

www.iid.gr | +30 210 89 39 060 | info@iid.gr

Working in the field for more than 20 years, IID S.A. has built a reputation as the country's leading service provider in designing and implementing digital archive systems, document management and optical character recognition (OCR) solutions. Established in 1993 and specialising in digitisation from 1996 onwards, the company has grown into a centre of digital transformation, guiding institutions and organisations from paper-based systems into a secure and sustainable digital era. With experience exceeding one billion digitised pages, IID S.A. offers remarkable scale and enduring expertise. Each archive entrusted to the company represents much more than just paper and ink; it reflects institutional continuity and cultural identity. The company's mission focuses on transforming knowledge into accessible and secure digital assets that generate long term value.

Operating in alignment with internationally recognised standards, IID S.A. holds certifications including ISO 9001 for quality management, ISO 27001 for information security, ISO 14001 for environmental management and ISO 22301 for business continuity. These accreditations demonstrate embedded systems and processes that prioritise reliability, data protection and service resilience and offer clients peace of mind that every project rests on structured governance and proven methodologies. IID S.A.'s participation in major digitisation initiatives across justice, healthcare, local government, urban planning and the national cadastre has modernised essential services and enhanced public transparency.

The judging panel was particularly impressed by the comprehensive and expert team working hard behind the scenes to guarantee excellence across all their digitisation services. With more than 1,000 highly specialised professionals, the company provides extensive depth of knowledge alongside nationwide reach. This exclusive team enables the successful delivery of complex, large scale projects across the country, while maintaining a focus on attention to detail. Continuous investment in education, innovation and collaborative practices means the workforce is also as reliable as it is competent. IID S.A.'s digitisation services reduce reliance on physical storage, lower resource consumption and support more sustainable operational models throughout the country.

IID S.A. is Greece's leading digital transformation firm, specialising in large-scale OCR and secure archiving for major national institutions since 1993.
